U.S. MPV Vaccine Supply Strategy

As of September 20, 2022

- **JYNNEOS vaccine was licensed in September 2019**
- **1.4 million** vials were purchased in 2020
- **5.5 million** additional vials have been ordered since May 2022

**Total Vaccine Vials Distributed**

- **Vials Ordered**: 6.9 million
- **Vials in SNS**: 330,271
- **Vials Distributed**: 853,009
- **Doses Administered***: 684,980

Planned by end of 2022: 2.2 million total vials

All projections are based on assumptions of successful fills, release testing to support use, and final release by the FDA

**Total Vaccine Doses Administered and Reported to CDC***
